Los Angeles, CA 90036.

Dear Dr. Phil,

792 days ago, our child was removed by Spokane Superior Court. Nor do we have visitation. There was not an adequate cause hearing to prove we ever did anything abusive.

I have been unable to get a police investigation as to why our son was removed from our home or an explanation from the Court either. My husband and I do not have criminal records. Drug records, violence of any sort, and have passed to CPS investigations, a polygraph, two drug tests and a detective's investigation looking for abuse. All done before and after our son was removed.

We have not have not had visitation since April 3, 2015. CPS said to not remove our son but the court did anyways. And they acknowledge they didn't have any sort of an adequate cause hearing when they took him.

I was wondering if you could find out how or why they took him and gave him to an unvetted non-state approved home and the \$300,000 plus has not brought him back or gotten us an answer as to why he isn't home.

The Court realizes their mistakes after a lengthy trial in October 27, 2016 and said they aren't removing us as parents. There was no caselaw that allowed them to give our child to the babysitters or restrain us.

In January 2017, we received a Findings of Fact that stated he shouldn't have been removed and in January we got a reunification order.

To date we have not seen our son.

I wrote to you previously and got responses from three producers. Because two producers were competing Matt Dalao stepped out of the way, when Marcial Rois contacted me at the same time. I filled out the paperwork requested by email, but have been unable to get Marcial Rois to respond back, stating that because it is a conflict show I need to bring other people to get your help. Our son was given to the babysitters who the court now say never would have gotten our child if they knew the facts. Unfortunately, we still have no child two years plus and no visitation.

The other person is Nicole Giatan, whom I didn't respond to for a long time, as I was waiting for Mr. Rios, who has been sent a lot of information to no avail and unable to get help. Ms. Giatan also doesn't respond so I am trying to start over in hopes to get some

sort of law enforcement to tell me why I don't have a son even though the Court said they are not removing us from being parent of our son.

If you have anyone that can look at our case and put fresh eyes on why our child was taken against CPS recommendations or any reason we don't have a child, it would be much appreciated.

Thank you,

A handwritten signature in black ink, appearing to read 'Teresa Simon', with a large, stylized flourish at the end.
